THE INCREDIBLE SERIES INCREIBLE CREATURES THAT DEFY EVOLUTION

WINNER INTERNATIONAL TELLY AWARD

The *Incredible Creatures That Defy Evolution* series enters the fascinating world of animals to reveal sophisticated and complex designs that shake the traditional foundations of evolutionary theory.

Why is it that evolutionists can't explain the unusual tongue of the European Green Woodpecker?

And then there's the giraffe, which should die every time it bends down to get a drink of water, but still lives to drink another day.

Blue Whales. Beavers and Bears. Hippos, Elephants, Spiders and Geckos and many more creatures ALL defy evolution and leave evolutionists scratching their heads.

Watch a Bombardier Beetle set off 1000 sequential explosions of fire from its twin gun turrets without blowing himself up.

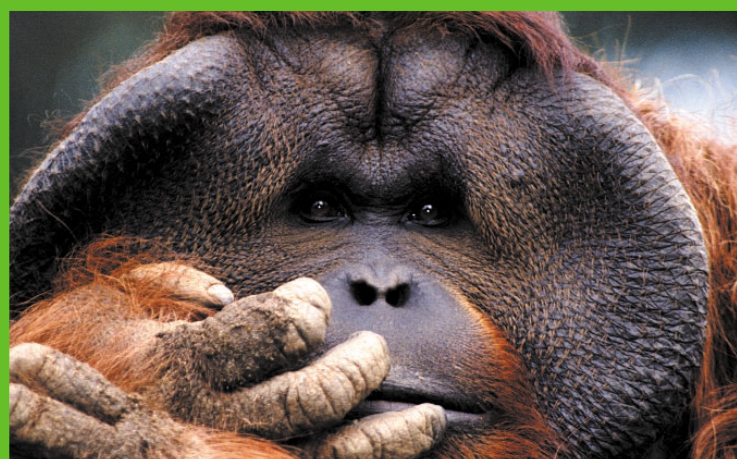

See for yourself why a dragonfly can fly backwards and learn why it was the inspiration for the modern day helicopter.

What's the strongest animal on earth? It's also one of the smallest.

THE INCREDIBLE CREATURES THAT
DEFY EVOLUTION series presents
powerful evidence that proves that
animal designs can only be attributed
to a brilliant creator. These animals
cannot possibly be explained by
evolution. These programs will
inspire you to look more closely at
the world around you.

Hidden Wisdom

The Ancient Meaning of the Dead Sea Scrolls

With Kenneth Hanson, PhD

It was one of the greatest discoveries in history. In 1947 a Bedouin shepherd boy uncovered an entire library of ancient scrolls that had remained hidden in a desert cave near the Dead Sea for nearly 2000 years.

But what truth do they contain? What do they mean for us today?

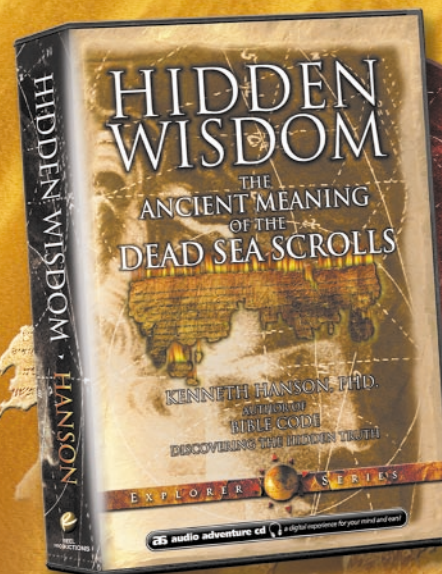

How is the wisdom, hidden in these ancient writings for centuries, as important today as when they were originally penned? Why did a Hebrew tribe die defending these treasured works?

In, **HIDDEN WISDOM The Ancient Meaning of The Dead Sea Scrolls**, Dr. Ken Hanson takes the listener on an exciting adventure of discovery and intrigue. An adventure that uncovers hidden wisdom.

Kenneth Hanson holds a PhD in Hebrew studies. He is a professor of Jewish history at the University of Central Florida, Religion and Philosophy at Rollins College, and lectures widely on the Dead Sea Scrolls. He has also lived and studied extensively in Israel.

First Love

Winner!
International Telly Award

A Historic Gathering of Jesus Music Pioneers

The late 60's and early 70's were a time of tremendous upheaval in our culture as the hippie generation abandoned the values of their parents, turned to drugs and away from materialism, and went on a search for love and peace. To these young people, "the establishment" which included the church, seemed irrelevant. At times, it felt like the very fabric of our nation might tear apart.

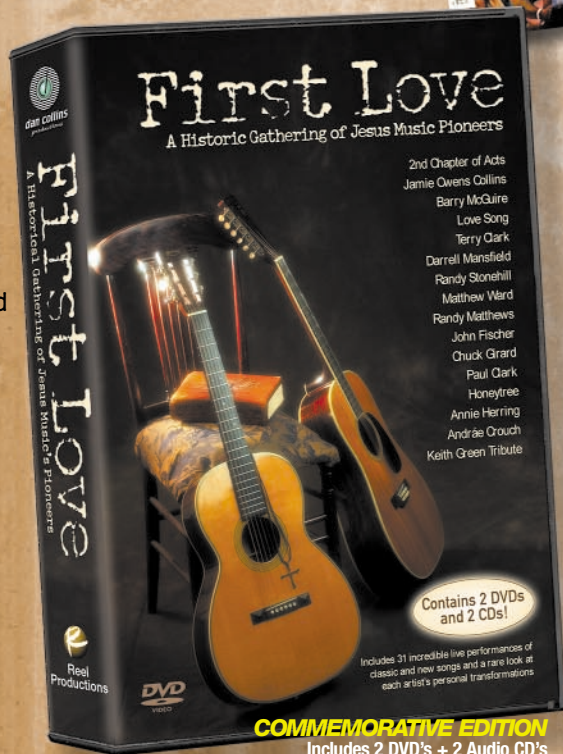

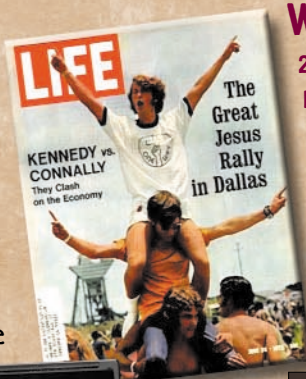

It was out of this tumultuous era that young, musical voices began to surface. These newly converted musicians began singing about the new hope they had found through Jesus Christ.

FIRST LOVE examines the life and music of the people who birthed the sounds of a revolution that swept American culture-the Jesus Movement.

For three historic days, these artists gathered for the first time in a mountain retreat in Southern California. First Love captures almost 4 hours of each of their incredible live performances and reveals a rare look at the heart and motives of each artist as they describe in intimate detail the drama of their personal transformation.

"We didn't know very much. We were naïve. All we knew was we were blind, now we see. And that was enough."

- Love Song

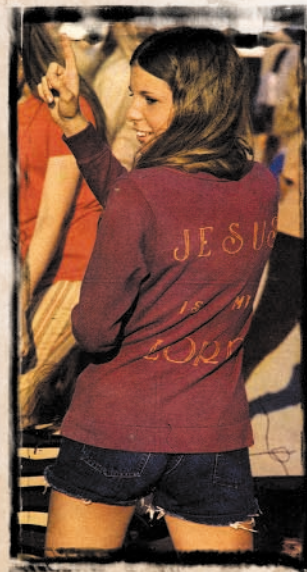

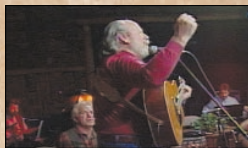

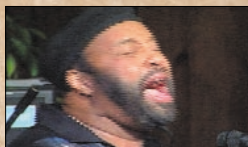

With performances by:

2nd Chapter of Acts, Jamie Owens Collins, Barry McGuire, Love Song, Terry Clark, Darrell Mansfield, Randy Stonehill, Matthew Ward, Randy Matthews, John Fischer, Chuck Girard, Paul Clark, Honeytree, Annie Herring, Andrae Crouch, and a Keith Green tribute with Melody Green

"The Jesus Movement was a holy explosion; it was a dramatic work of the Holy Spirit. Spiritually it was as refreshing a thing that has happened in the 20th Century"

Pastor Jack Hayford
The Church on The Way
Van Nuys, California

JOURNEY OF HOPE

IF YOUR HOPE NEEDS TO BE REVIVED,

IF YOUR HOPE HAS BEEN LOST,

IF YOU HAVE NO HOPE AT ALL,

LISTEN TO THESE STORIES OF HOPE.

THIS COULD BE YOUR STORY.

Why do bad things happen to good people? What is the reason for suffering? Is there a purpose for pain? Are we just victims of circumstance? Is there a God? And if God is real, does He care about us individually in our deepest despair?

If you or a loved one are asking these questions, if you are in a valley of depression or despair, you desperately need hope. You need a hope that is real, a hope that is firm, a hope that lasts no matter how long or deep your valley.

How did Dave Dravecky, the famous pitcher for the San Francisco Giants, find HOPE after his pitching arm snaps and he has to face life as an amputee.

Charlie Wedemeyer was one of the most winning coaches in the history of high school football who found HOPE confined to a wheelchair with Lou Gehrig's disease.

Journey of Hope provides you with the hope you need to overcome fear, pain, loneliness, doubt and despair - with a hope that is real, a hope you can build your life upon.

"HERE'S A DREAM
THAT I HAD AT 8
YEARS OF AGE, I SAW
IT BECOME A REALITY.
NOW SOMEBODY'S
SAYING YOU'LL NEVER
PLAY AGAIN."

DAVE DRAVECKY

"PAIN AND SUFFERING

IS INEVITABLE BUT

MISERY IS OPTIONAL.

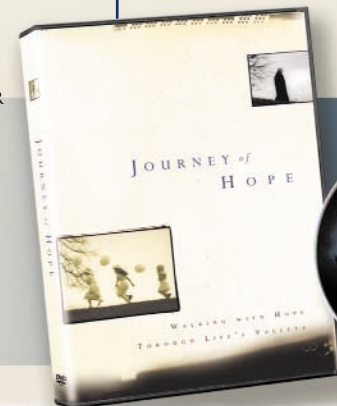

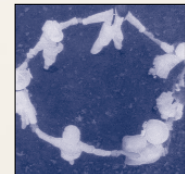

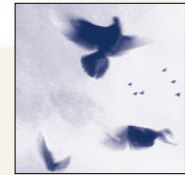

AND WE MAKE THAT

CHOICE. AND MORE

THAN 25 YEARS AGO,

I CHOSE GOD."

CHARLIE WEDEMEYER

LIFE'S STORY

**How much
can animals change?**

**Why do so many species depend
upon one another to survive?**

**Where does instinct and
intelligence come from?**

**And what do the designs of creatures
alive today reveal about their history?**

What does modern DNA research now prove about the theory that simple cells evolved into all life on earth? The answer? Simply that evolution is impossible. So why is this information being kept from the general public? Should Darwin's theories still be taught as "facts" in our educational institutions?

In a wildlife program unlike any other seen before, you will journey to discover the story of life itself. This program examines the long held beliefs that have been the foundation of the whole understanding of natural selection for more than 150 years.

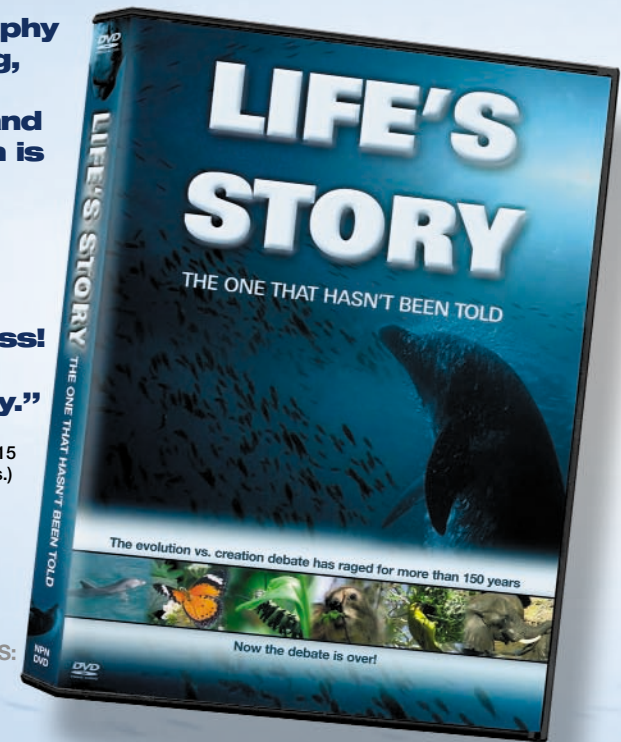

"I had to view the program twice, it was so good, I couldn't believe it the first time I watched it."

Dr. David Rosevear: President of The Creation Science Movement - United Kingdom

"The photography is breathtaking, the science is crystal clear and the application is thoroughly Biblical. Life's Story is surely a contender for Best in it's Class! I commend it wholeheartedly."
