THE MASTER DESIGNER - THE SONG

From the award winning producer of the acclaimed series
"Incredible Creatures That Defy Evolution" comes a new blockbuster film.

CRITICAL ACCLAIM FOR THE MASTER DESIGNER—THE SONG
"A masterful nature journey that skillfully handles the evidence for design!"
Josh D. McCrell, Author and Speaker

"A remarkable job of telling a powerful, compelling story...a lesson for
faith-based filmmakers everywhere."
Phil Coulter, Reverend, media consultant, and two-time selling author

We live in a world that is inspired, filled with majestic order, unbelievable beauty and brilliant design.
With the advance of science we can now see life in microscopic detail and mind-blowing wonder.

The raging question of our time is: How did this all come to be? Can it all be attributed to unintelligent
random processes or is there another explanation? Does the scientific evidence now demonstrate clear
design and reveal a Master Designer, and if it does, what does that mean to us?

This is a glimpse into the blueprints of creation that reveals a dramatic story...a story of purpose, meaning,
significance and ultimately love, all crafted by The Master Designer.

The *Incredible Creatures That Defy Evolution* series enters the fascinating world of animals to reveal sophisticated and complex designs that cannot be explained by evolutionary theory and can only be attributed to a brilliant creator.

- How does a giraffe get a drink without causing lethal blood pressure to his brain?
- How can Geckos walk upside down, even on glass and not fall?
- How the Emperor Penguin can go two and a half months without eating and drinking?
- How some birds can navigate over thousands of miles of ocean and never get lost?

CAN WE TRULY KNOW THE DAY OF OUR DEMISE?

Jesus chastised religious leaders in ancient Jerusalem for not knowing the time of His first arrival. Will the prophesied first generation make the same mistake today? The Bible foretells that the end of days would be preceded by a series of specific global events that have never before occurred, but is this based on fact or fiction? Through newly exposed geological and statistical evidence, a re-examination of these events has now been discovered that many believe finally proves the Tribulation is about to begin! Featuring

Kade Hawkins, Ray Bentley,
Douglas Hamp, Tom Hughes,
Brent Miller Sr and Jack Hibbs!

**A genuinely disturbing wakeup call
that will keep you thinking for days!**

**A heartwarming story how wild animals taught one
broken man to be human again.**

**AN ANIMAL ENCOUNTER YOU WON'T BELIEVE
A SURPRISE REDEMPTION HE DIDN'T BELIEVE**

In northwest Ontario, in the little town of Emo, Michael Scholtier and his wife, Betty, bought 320 acres of land here. Little did they know there was something unusual about this place.

Animals started appearing, finding sanctuary here. Deer, raccoons, a wolf and then...out of the wild they came. Wild Bears!

As the bears and Michael developed trust, he began to do the remarkable...maybe unthinkable.
He began to feed the bears...by hand.

But this story is not what you expect...

From Real Productions, comes a rare film that will take you on a unpredictable journey...and a surprise encounter with the power of redemption.

A heart-warming story of how wild animals taught one broken man to be human...again.

Rebellion of Thought

**Post-modernism, the church and the
struggle for authentic faith**

What is post-modernism? How has it affected our culture? How will it impact our future? Does man truly need God or is God merely a fairytale idea leftover from a past cultural experiment? These questions are the launching point for Rebellion of Thought, as filmmakers, The Brothers Williamson examine a new generation that refuse to accept authority, code and convention. They probe the impact and consequences of such thinking both for the church and society.

Parents, educators, small group leaders and Christian churches ignore the questions raised in Rebellion of Thought at their own peril. Without this critical examination, the result of post-modernism will bankrupt future generations in the years to come.
